

D950E

Special Features :

- Automatic Control*
- CFC Free*
- Silent Operation*
- Auto Defrost*
- Low Power Consumption*
- Auto Tank Full Stop*
- Digital Humidity Control*
- Drain Pipe Outlet*
- 2 Fan Speed*

Industrial Wall Mounted/ Floor Standing Dehumidifier

Portable Dehumidifier series

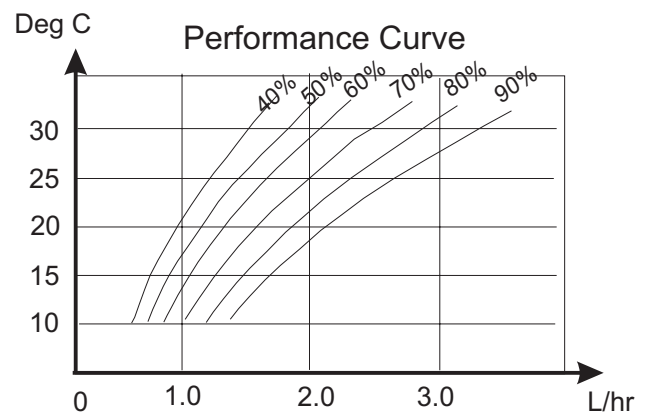

Digital Control Panel
with RH display

Moving Air Supply
grill

The D950E is a medium large size, floor standing or wall mounting condensation dehumidifier, designed for large floor area application. It is a general purpose machine for controlling medium range humidity. It has an good air circulation versus drying capacity ratio. As such no messy duct work is required when this unit is used. Unlike larger models which have very large drying capacity, which require air distribution channels like duct work to convey the dry air from one part of the room to another, the D950 covers good range of floor area. The strong blower circulates the dry air evenly. Therefore, it is ideal for large space dehumidification application. Multiple units are placed at strategic corners of a large space. Installation work is minimal, with no than a simple 230 VAC power supply and common drain pipe

Technical Data	D950E
Condensate Capacity at 30 deg C 90% RH	80 L/day
Condensate Capacity at 30 deg C 80% RH	68 L/day
Condensate Capacity at 30 deg C 70% RH	60 L/day
Working Range - Humidity	35-95 %
Working Range - Temperature	5-35 Deg C
Air Circulation	680 CMH
Power Supply	230 V / 50Hz
Power Consumption	1200 Watt
Refrigerant	407 C
Weight	44 kg
Dimension (mm) : Height X Width X Depth	750 X 660 X 345
Colour	White

Thousands of square meter space can be dehumidified without a single duct work. The E950 dehumidifier can be wall mounted with relatively little protrusion. An easy to operate control panel is on top with a digital control panel. Humidity reading in digital format is on the control panel, together with several status indicating lights. Remote interface can be incorporated to link up with Building Automation System for control & monitoring. The E950 has a built-in dust filter. It is easily removed for cleaning. Water pump can be incorporated to pump away condensate water.
